

FESCO at a glance

FESCO is one of Russia's largest transportation and logistics companies with port, railway, and integrated logistics assets. Since late 2023, the Group has been operating as part of Rosatom State Corporation. A diversified asset portfolio enables FESCO to provide door-to-door solutions and control all links of the intermodal transportation value chain.

GRI 2-1

Throughout its nearly 150-year history, FESCO has played an active role in the development of the transport industry and in addressing major national challenges. The Group's development is closely intertwined with landmark events in Russia: during the Great Patriotic War, its fleet delivered the majority of Lend-Lease cargoes, while in peacetime it was in charge of strategically important tasks supporting foreign trade in the Asia-Pacific region.

Today, FESCO plays a key role in developing Russia's sovereign logistics, as the Group relies primarily on its own fleet and container assets to carry out international shipments with a view to supplying the country with essential imports and supporting the expansion of Russian exports to friendly countries.

FESCO serves all major transport corridors and navigates the waters of every ocean – the Pacific, Atlantic, Arctic and Indian. As part of Rosatom State Corporation, the Group operates its own international and domestic sea routes.
